

C#/.NET Web Developer

Description:

Whoa there, hotshot. Stop scanning for big-name logos. Sometimes the biggest opportunities come in small-but-perfectly-formed Subiaco packages...

Ad copy:

- Based in smart and sassy Subiaco
- Generous contractor/project rates
- Use the latest technologies and learn from our .NET guru

Flexible. Innovative. Talented. Popular. Devastatingly good looking. But enough about us. Let's talk about you and how we can help you do all those cliché recruitment things like 'realise your potential' and 'learn while you earn' as a project contractor at Alyka.

As a small Subi web design and development business we're punching well above our weight. That means we're looking for a developer who wants to use the latest technologies, working with us on a project basis to develop kick-ass CMS websites, integrated databases and custom web applications for our growing portfolio of clients. You'll need proven C# and ASP .NET 3.5 experience. You'll have ninja-like SQL and database design skills. And you'll be as ambitious as we are, keen as mustard to prove your mettle and break new ground.

In return, we'll reward you generously. There will be bonuses for going beyond the call of duty. There will be exciting opportunities to learn from our .NET sage. And there will be copious amounts of great coffee. So if you have the skills and expertise, send your resume and cover letter to recruitment@alyka.com.au. Alternatively, phone (08) 9200 4429 for an informal chat.
